### **DETAILED ACTION**

1. Applicant's election with traverse of June 27, 2007 is acknowledged. In addition, claim 18 is withdrawn by the examiner as being of a different species.

#### ***Information Disclosure Statement***

2. The IDS of August 9, 2004 does not include the dates and the inventors' names. Corrective action is required.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 recites the limitation "said tube." There is insufficient antecedent basis for this limitation in the claim.

#### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-6, 8, 9, 14-17, and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Inamura et al.

Inamura et al. shows a fire extinguishing system including a nozzle having a cavity and at least one extinguishant outlet 100 which is fixed in use, and a device 330 to induce rotational movement of the extinguishant, wherein at least a portion of each outlet is inclined as recited in claim 2. The methods as recited are carried out by the device of Inamura et al.

### ***Conclusion***
